

IFAT 2014 in Munich – Danube Region Area

Dear Ladies and Gentlemen,

The Environmental Technology Network Danube Region is an Umwelttechnik BW project which started work in April 2013 and recorded a continuous growth of our members and partners. <http://www.umwelttechnik-bw.de/environmental-technology-network.html>

IFAT is the International Trade Fair for Water, Sewage, Waste and Raw Materials Management and will take place from 5 to 9 May 2014 in Munich, Germany. <http://www.ifat.de>
The state of Baden-Württemberg presents innovative environmental technology solutions on a joint stand of 250 qm.

The Environmental Technology Network Danube Region is participating with a promotion area of 25 qm. Here the network members and partners are presented and the area provides space for discussions on cooperation between participants from the Danube region.

We invite you to present your country with responsible participants, designers and sponsors, as well as ongoing and planned projects in the field of environmental technology.

We offer a space for:

- National presentations on the state of environmental technology
- Meeting Points for project partners
- Events on the topics of funding opportunities in the Danube region, implementation of the EU Danube Strategy and Flagship Projects

Your presentation and catering on the Danube Region stand will be free of charge.

We would also be pleased to welcome a delegation from your country as a guest on the Danube region stand. Admission charges at the fair will be covered by the Environmental Technology Network Danube Region.

We look forward to your suggestions and ideas for your participation on the Danube Region stand. Please bear in mind that we need to organize and plan early. Therefore, we would like your feedback by 28 February 2014.
